CO2 and Climate Change

As part of our commitment to:

- The protection of the environment
- Reducing the detrimental impact of events on the environment
- Improving the sustainability of motorsport in the UK

We donate a small environmental levy from our events to offset the CO2 produced by all competing vehicles, and that of the South Hams Motor Club organisers on the event. We invest this in a local tree planting scheme to permanently offset the carbon produced and to achieve net-zero carbon for our events:
